INTRODUCTION

This document is designed to “get to the point” of exactly who was behind the creation of the Global System, and who controls it today. Section 1 to 5 contain a simple chronological index, listing all major individuals and organizations involved with the creation of the System. The history of the System, and the conspiracy to create it, dates back hundreds of years (see Section 7, ‘System History Pre-1913’), however, this document only covers ~1900 to 2019 in detail, as it was during this period that the most pivotal events occurred.

The basic purposes of this document are:

- 1) To demonstrate the existence of a multi-generational and highly-incestuous conspiracy to establish a Global World Governing System.
- 2) To add constantly overlooked context to the First and Second World Wars (which, in reality, could be regarded as one long war, with a short “peaceful” intermission).
- 3) To serve as a point of reference or mini encyclopedia that individuals can refer back to while conducting their own research.

The information in this document was compiled after many hours of research and is accurate, as per the sources listed under each subheading, as of 2019. All sources used are “mainstream” and are widely regarded as reputable.

Enjoy.

7. SYSTEM HISTORY BEFORE 1913

The creation of the Global System did not begin with the founding of the Federal Reserve, where this document begins. However, the founding of the Federal Reserve was the first step in the final chapter that led us to our current situation.

The most important pre-Fed incidents include:

- 1600s Britain, the English Civil War, which led to the creation of the Central Bank of England;
- 1800s U.S.A, the War of Independence and Civil War, which were fought partially to free the American people from the clutches of international financiers.

It was the U.S Civil War (1861 to 1865) that ended the Jacksonian “Free Banking Era” of America, and led to the eventual creation of the Federal Reserve in 1913, formed after the New York Times’ Annual Financial Review published Paul Warburg’s first official reform plan, titled “A Plan for a Modified Central Bank”.

Below is a rough timeline from the beginning of the current iteration of the World Government / Global System conspiracy theory (which began with Merchant Banking).

Date	Event	Result
Mid 1600s	English Civil War	Centralized banking in British Empire
Late 1600s	Age of Enlightenment begins	Masonic influence becomes dominant
Mid 1700s	Industrial Revolution	Centralized production in European lands
Late 1700s	French Revolution	Masonic ‘Liberalism’ and ‘Left vs Right’
Mid 1800s	Marx writes Communist Manifesto	Masonic ‘Communism’
Mid 1800s	US Civil War	Centralized power in USA
Early 1900s	Federal Reserve founded	Centralized banking in USA
Early 1900s	WW1 / LN, EU, CFR, etc. founded	Global System beta established
Mid 1900s	Bolshevik Revolution / USSR founded	Centralized banking / production in Russia
Mid 1900s	WW2 / UN, WBG, IMF, etc. founded	Global System alpha established
Mid 1900s	ChiCom Revolution / P. R. China founded	Global System arm established in Asia

You can easily find information on the events listed above if you so desire, but you are strongly advised to look into the history of Merchant Banking—you can find a short summary here: <http://archive.vn/4a91x>

8. RELEVANT QUOTATIONS

"For most of the nineteenth century, N. M. Rothschild was part of the biggest bank in the world which dominated the international bond market. For a contemporary equivalent, one has to imagine a merger between Merrill Lynch, Morgan Stanley, J. P. Morgan and probably Goldman Sachs too—as well, perhaps, as the International Monetary Fund, given the nineteenth-century Rothschild's role in stabilizing the finances of numerous governments."

— Niall Campbell Ferguson, British Historian

"We shall have world government, whether or not we like it. The question is only whether world government will be achieved by consent or by conquest"

— James P. Warburg, Financial Advisor to F. D. Roosevelt

"It is well enough that people of the nation do not understand our banking and monetary system, for if they did, I believe there would be a revolution before tomorrow morning."

— Henry Ford, American Businessman

"A great industrial nation is controlled by its system of credit. Our system of credit is concentrated. The growth of the nation, therefore, and all our activities are in the hands of a few men. We have come to be one of the worst ruled, one of the most completely controlled and dominated governments in the civilized world.

No longer a government by free opinion, no longer a government by conviction and the vote of the majority, but a government by the opinion and duress of a small group of dominant men."

— Woodrow Wilson, U.S. President

"The drive of the Rockefellers and their allies is to create a one-world government, combining supercapitalism and Communism under the same tent, all under their control. Do I mean conspiracy? Yes, I do. I am convinced there is such a plot, international in scope, generations old in planning, and incredibly evil in intent."

— Larry P. McDonald, U.S. Congressman
(murdered by Communists, 1976)

"Some even believe we are part of a secret cabal, working against the best interests of the United States, characterizing my family and me as 'internationalists,' and of conspiring with others around the world to build a more integrated global political and economic structure - one world, if you will. If that's the charge, I stand guilty, and I am proud of it."

— David Rockefeller, (Memoirs, 2002)

"The world is governed by very different personages from what is imagined by those who are not behind the scenes."

— Benjamin Disraeli

"He who controls the money controls the world."

— Henry Kissinger, U.S. Secretary of State

"The few who understand the system, will either be so interested from its profits or so dependent on its favors, that there will be no opposition from that class."

— Mayer Amschel Bauer Rothschild.

"When a government is dependent upon bankers for money, they and not the leaders of the government control the situation, since the hand that gives is above the hand that takes. Money has no motherland; financiers are without patriotism and without decency; their sole object is gain."

— Napoléon Bonaparte

"Gentlemen! I too have been a close observer of the doings of the Bank of the United States. I have had men watching you for a long time, and am convinced that you have used the funds of the bank to speculate in the breadstuffs of the country. When you won, you divided the profits amongst you, and when you lost, you charged it to the bank. You tell me that if I take the deposits from the bank and annul its charter I shall ruin ten thousand families. That may be true, gentlemen, but that is your sin! Should I let you go on, you will ruin fifty thousand families, and that would be my sin! You are a den of vipers and thieves. I have determined to rout you out, and by the Eternal, I will rout you out!"

— Andrew Jackson, U.S. President

"If the American people ever allow private banks to control the issue of their currency first by inflation then by deflation the banks and corporations that will grow up around them will deprive the people of all property until their children wake up homeless on the continent their Fathers conquered... I believe that banking institutions are more dangerous to our liberties than standing armies. The issuing power should be taken from the banks and restored to the people to whom it properly belongs."

— Thomas Jefferson, U.S. President

"This Act (the Federal Reserve Act, Dec. 23rd, 1913) establishes the most gigantic trust on earth. When the President signs this bill, the invisible government by the Monetary Power will be legalized. The people may not know it immediately, but the day of reckoning is only a few years removed. The trusts will soon realize that they have gone too far even for their own good. The people must make a declaration of independence to relieve themselves from the Monetary Power. This they will be able to do by taking control of Congress. Wall Streeters could not cheat us if you Senators and Representatives did not make a humbug of Congress. The greatest crime of Congress is its currency system. The worst legislative crime of the ages is perpetrated by this banking bill. The caucus and the party bosses have again operated and prevented the people from getting the benefit of their own government."

— Charles A. Lindbergh, Sr., U.S. Congressman

"It (a New World Order) cannot happen without U.S. participation, as we are the most significant single component. Yes, there will be a New World Order, and it will force the United States to change its perceptions."

— Henry Kissinger, U.S. Secretary of State

9. AUTHOR'S CONCLUSION AND FINAL WORDS

At the end of the Second World War "Western Civilization", as it had existed, and as it is still perceived by many today, ended and was replaced. By 1945, the political apparatus of the West was almost completely subsumed into the System, and within the following decade, the Global System was thoroughly cemented in place. We now live under occupation by a global, 1984-style police state—tyrannical rule by corporations, bankers, and bureaucrats, shoddily disguised as "democracy"—the truth is that there was never any "democracy", nor did we ever have a choice in any of this. The so-called "national" governments of various Western countries now function as nothing more than front offices for the Global System. Many people today are still under the illusion that these front offices are somehow still theirs, still accessible, still workable, or, at worst, still salvageable. Sadly, this is no longer the case. The System's grip is absolute; the educational apparatus, media apparatus (both private and state-owned), state apparatus and political parties are all owned and controlled by the System. 99.99% of our spineless politicians are bought-out and compromised traitors. Additionally, thanks to the System's many layers of filtration, the 0.01% who are not spineless, bought-out, and compromised have a 100% chance of being permanently ejected from the System before being able to make any notable political progress.

The System will not allow us to use its own apparatus to destroy it.

These villains did not spend centuries constructing the most expansive, complex, and powerful political network in recorded history to simply give it away to the very people it is designed to enslave. Tyrannous masters do not willingly free their slaves.

An occupier does not allow the occupied to vote their way to freedom.

Unfortunately, due to the System's grip on media and education, many people have been brainwashed into total Stockholm Syndrome; not only do they regard the System that enslaves them as their savior, but they will readily lay down their lives to defend this System. The brainwashed will happily attack, or even kill, any fellow slaves who dare to challenge their System-imposed views. Consider the following: when was the last time you saw ANTIFA (who are self-admitted "anarcho-communists"), or any other "Leftist" groups, attacking the Federal Reserve, IMF, or World Bank? Decades ago. Why? Perhaps because they now know, deep down, that "their side" has already won? The side of Globalism, Liberalism, Marxism, etc. Many of these Leftists—the self-proclaimed defenders of the working-class—go far beyond passive coexistence with the System, vehemently endorsing its tyrannical, bureaucratic, uber-capitalist organizations. Why? Again, the true reason is Stockholm Syndrome, engineered through decades of guilt and trauma propaganda. Their thoughts are not their own, but System-imposed, pre-programmed responses, to be regurgitated when they encounter specific stimuli. The CIA perfected this. This Stockholm Syndrome theory only applies to the System's brainwashed grunts, you can be certain that the "Leftist" elites who run our media and education systems are just as happy being in bed with the capitalists of the System as the Bolsheviks and Chinese Communists were and are.

It should be noted that the labels of "Left" and "Right", as defined by the Overton Window of controlled mainstream politics, are now completely defunct. The use of these labels

began with the Freemasonic French Revolution and, since then, they've served no purpose other than to further the Systems' divide and conquer agenda; every occupied state is split directly down the middle. This faux-polarization of the people has accelerated beyond belief in recent years, yet the "Left" and the "Right" espouse almost identical political stances, underpinned by marginally different justifications. For example, the Left favors open borders and "illegal" immigration because it would be "bigoted and oppressive" to turn away any individual waltzing unchecked through their front door. The Right favors semi-open borders and "legal" immigration, because flooding labor markets with surplus workers is "good for profit", good for GDP, and good for the System's "economy." The results of these policies are functionally identical, yet both sides are led to believe that their "opposition", Left or Right, is evil incarnate. Consider also the Left and Right wing attitudes towards LGBT: The Left believes that children should be educated on the virtues of transgenderism as young as possible, lest they grow up to become "oppressive bigots"; five, four, even three years old, no child is too young to be enlightened. The Right-wing protests: "No, no, no! This is insane! We must wait until the child is at least ten years old to incorporate the virtues of transgenderism into their education curriculum". Once again, the results are functionally identical.

The dictator and the fundamental benefactor of all of these policies is the System. Investigate the H.R. policy of any Fortune 500 or Council on Foreign Relations affiliated corporation and you'll find many of these sentiments echoed verbatim.

Every policy that the System wishes to implement is endorsed in its entirety by the combination of the controlled "Left" and the controlled "Right". Endless compromise means that neither "wing" ever truly satisfies their base of support, but together, both wings completely satisfy the System. This dissatisfaction among the people leads to petty squabbles, inter-"wing" conflicts, inter-party conflicts—even families are torn apart by this farcical political theater. Via this good-cop-bad-cop routine, the System's agenda never ceases to advance, but the people are completely blind to this, distracted by the ever-increasing division caused by the entropic shambles known as Democracy.

Left vs Right is over, what matters now is System vs Anti-System.

It is an absolute necessity to address the Second World War, as this conflict was the final victory of the Global System over the everyday man. Regardless of your views on the War, the reality of the situation is this: The true victor and the only victor was the Global System. These criminals certainly weren't on the side of the tens of millions of average working people who tragically died during and after this engineered conflict, and these criminals certainly weren't on the side of the millions of sacrificed Allied and Axis soldiers, who all died believing that they were fighting to defend their national sovereignty.

Where is their sovereignty now? Sold off to globalism under the guise of "World Peace," immediately after the War ended. And what has followed since then? Endless conflict, war after war, a horrendously destabilized World, ever-decreasing freedoms, ever-worsening living conditions, suicide rates skyrocketing, health plummeting, divided societies, divided families, rampant pollution, nature itself is being destroyed and poisoned en masse, to the point that animals are being mutated and rendered infertile on a genetic level.

But we're all "comfortable", aren't we? Nice and pacified. Huge TV? Check. Giant sofa? Check. Full fridge? Check. Smartphone? Check. Shiny gadgets? Check. Hedonistic escapism? Check. Anti-depressants? Check. Will to live? Uhhh...

The System is responsible for 99.99% of the horrors of the Modern World, but positions itself as the primary, if not the sole defender against its own crimes; just like their hollow claims of working to create "World Peace" while waging war after war, after war across the entire planet. Their vision of "World Peace" will only be realized when the whole World has been violently trampled under their boot, and revolution against their tyranny is no longer possible. Their vision of "World Peace" is conquering the entire globe and beating their slaves into a sniveling, pacifistic submission.

Sounds pretty bad, doesn't it? Well, it is, and things are going to get worse.

Do you want the painful truth or a beautiful lie? These days, the lies are hideous and you already have the truth, so welcome aboard. Getting out of this mess starts with people like you spreading awareness, promoting healthy living, helping your local community, and organizing politically. None of the aforementioned things are viable solutions to get us out of this mess, but they are steps onto the right pathway.

Finally, if you found this document useful, please save this PDF and spread it anywhere and everywhere, the more people who understand the System, the better.

and the Creation of the Global System

Final Words

After reading this document you should have a decent grasp on the extremely incestuous nature of the Global System, as well as understanding that the project to create this System has been led by an unfathomably small amount of people, from the same "elite" families, generation after generation. This being said, they would never have achieved their goals without the assistance of those further down the chain of corruption, ready to sell out their people for power, influence, and quick dollar.
